

# LAKHVINDER SINGH

FULL STACK SOFTWARE DEVELOPER

437-299-2178 | L.s.dhillon6375@gmail.com | Brampton, Canada | [lsdhillon.com](https://lsdhillon.com)

---

## CAREER SUMMARY

I'm a Full-Stack Developer with a strong focus on backend development and **1 year of hands-on experience** working with **JavaScript (Node.js, React), PHP (Laravel), and Python**. I have successfully **led and delivered complex projects**, including **CMS platforms, a court booking system, and an event management system**. I thrive on **problem-solving and taking ownership** of challenging tasks, and I enjoy working on **scalable backend architecture**. While backend development is my primary strength, I am actively expanding my skills in **cloud computing, DevOps, and CI/CD pipelines**. I am open to both **backend and full-stack roles** and eager to contribute to **high-impact products** that push my technical boundaries.

## TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), PHP
- **Frontend Development:**
  - **Frameworks/Libraries:** React.js,
  - **Styling:** HTML5, CSS3, SASS, Bootstrap, Tailwind CSS
  - **State Management:** Redux, Zustand
- **Backend Development:** Laravel, Node.js, Express, Next.js
- **Databases:** MySQL, MongoDB
- **Cloud & DevOps ( Learning ):**
  - AWS (EC2, S3, RDS, Lambda for backend scalability)
  - CI/CD (GitHub Actions, Docker, Jenkins)

## WORK EXPERIENCE

Full Stack Software Developer | [Weblab Solutions](#)

Nov 2022- Jan 2024

- Focused primarily on backend development, handling API integrations and deployments
- Led and developed CMS for major clients like Aurobindo.com & UMPEL.com.
- Designed and built a Court Booking System integrated with Gopichand Academy ([gopichandacademy.com](#)), allowing users to easily book courts and manage their reservations.
- Developed an Event Management System as an in-house software solution, handling exhibitors, visitors, and admin functionalities. This system was sold to other companies for managing events efficiently.
- Gained experience in project leadership, successfully delivering multiple projects.
